# SAFETY WITHOUT COMPROMISE

As a company, Great Lakes took the bold step of mandating the COVID-19 vaccine for all employees in early August 2021 - well before the Biden Administration's vaccine mandate for federal contractors. We achieved full vaccination status in October 2021, protecting our employees and reducing the pandemic's impact on our operations.

We continuously work to improve our safety culture and resources. In 2021, we launched an energy-based hazard recognition tool, which uses the Energy Wheel to guide pre-job safety meetings and also to scan dangerous work environments. Using the energy wheel prompts the brain to consider hazards that might otherwise go unnoticed. There have been many lessons learned throughout this pandemic, which aid us in closely monitoring its path and adjusting our COVID-19 Response Plan to protect our people. In 2021, Great Lakes continued to excel in both leading and lagging indicator performance.

Great Lakes Dredge & Dock entered 2021 knowing our Incident and Injury-Free® (IIF®) culture had prepared us to weather the continued pandemic and begin to protect ourselves with the newly developed COVID-19 vaccines. When this safety tool became available in February 2021, Great Lakes' COVID-19 Command Team took immediate action to communicate vaccine information and encourage all our employees to get the shot.

The Great Lakes' Executive Team led by example by getting vaccinated as soon as eligibility and availability allowed, and readily shared their experiences across the company. We consistently educated our team members on the importance of vaccination via weekly email updates from senior leadership, as well as outside medical professionals answering our employees' vaccine questions on Zoom calls across the fleet and company.

Our team members worked on updating our safety rule book — S.A.L.T. (Save A Life Today), which functions as an essential safe-work tool — an important safety tool for all employees. We also revised our Safety Without Compromise workshop that conveys Great Lakes' safety culture as distinct from basic technical safety associated with job-specific duties. It models and articulates our safety culture in ways that make clear what is expected, each and every day, of new and front-line employees back on the job relative to their own safety and that of their coworkers.

Our safety leadership was recognized in 2021 by U.S. Army Corps District and Division Commanders at the Army Corps of Engineers Annual Meeting. GLDD was also invited to the Signal Mutual Annual General Meeting to present "Safety Without Compromise: The Importance of Executive Leadership."

With the challenges of many new team members joining Great Lakes, safety and our IIF® culture will help ensure safe operations in the coming years.

A special thanks to our project teams, vessel crews, and maintenance personnel who make all of the above possible with their dedication, attention to detail, conscientious efforts, and team work.

**Lasse Petterson**  
Chief Executive Officer and President

**David Simonelli**  
Chief Operating Officer

Great Lakes Dredge & Dock Company, LLC (GLDD) is the largest provider of dredging services in the United States and the only U.S. dredging service provider with significant international operations. GLDD owns and operates the largest and most diverse fleet in the U.S., and in its over 130-year history, the Company has never failed to complete a marine project.

The year 2021 was a year of transition, change, and adaptation. We moved our headquarters to Houston, Texas; launched a new offshore wind business; and protected our employees from COVID-19 while delivering our commitments to our clients and stakeholders.

In January 2021, GLDD launched a new offshore wind business and in November signed a contract with Philly Shipyard, Inc (OSE: PHLY) to build the first U.S.-flagged Jones Act-compliant, inclined fallpipe vessel for subsea rock installation. This vessel will service America's growing offshore wind energy industry and help reach the Biden administration's ambitious 30 GW of offshore wind goal by 2030.

This GLDD subsea rock installation vessel will be U.S. owned, U.S. built, U.S. operated and crewed by American union workers, and will meet all conditions of the Jones Act. The vessel will transport and strategically deposit loads of rock on the seabed, laying scour protection for offshore wind farm foundations, cables and other structures. The ship will have an overall length of 140.5 meters (461 feet) and a breadth of 34.1 meters (112 feet). Further, the vessel is expected to help spur additional job growth and regional economic opportunities through the creation of a U.S.-based rock supply chain network, which will be needed to supply subsea rock installation activities, from quarries in states along the East Coast. The vessel is expected to be sea-ready by Q4 2024.

A rendering of GLDD's new rock installation vessel for the offshore wind market, to be constructed at Philly Shipyard, Philadelphia, PA.

Main: Captiva Island, Florida, coastal beach nourishment project being performed by hopper dredges Dodge Island and Padre Island and Booster Buster for Captiva Erosion Prevention District.

Insert: This year we lost a great Captain in our hopper fleet, Captain Wade Poor, Dodge Island. Many of us have fond memories of working with Captain Poor during his fourteen plus years with the hopper fleet. Wade was a stalwart leader of crews and vessels throughout his life-long career in dredging and with the Great Lakes Hopper Fleet. Beloved Captain, Husband, Father, and Friend, a heartbreaking loss for all.

GREAT LAKES DREDGE & DOCK COMPANY, LLC

**IF** INCIDENT & INJURY-FREE

# CUTTER SUCTION DREDGES

**TEXAS**

30 in (762 mm) Discharge Diameter | 15,771 hp (11,765 kW) Total Installed Power

**CAROLINA**

30 in (762 mm) Discharge Diameter | 15,325 hp (11,432 kW) Total Installed Power

**OHIO**

30 in (762 mm) Discharge Diameter | 15,670 hp (11,690 kW) Total Installed Power

# ILLINOIS

30 in (762 mm) Discharge Diameter | 11,300 hp (8,430 kW) Total Installed Power

# ALASKA

30 in (762 mm) Discharge Diameter | 11,200 hp (8,355 kW) Total Installed Power

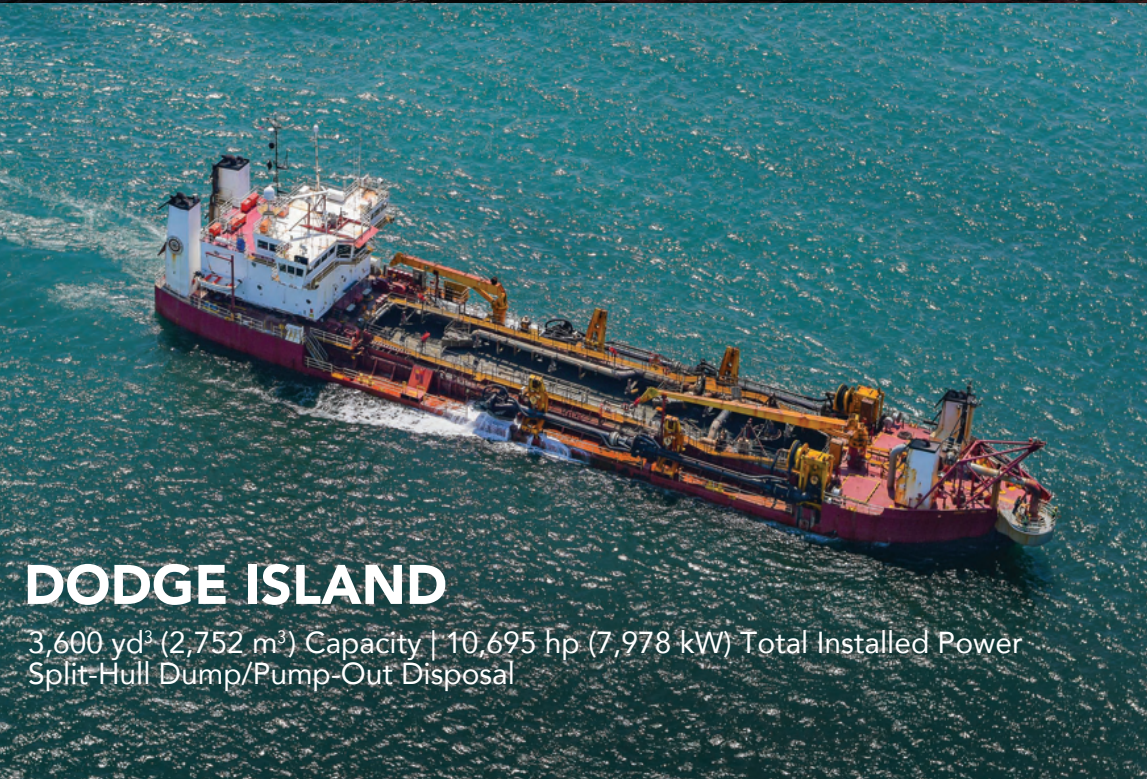

# TRAILING SUCTION HOPPER DREDGES

## ELLIS ISLAND

14,800 yd<sup>3</sup> (11,315 m<sup>3</sup>) Capacity | 28,625 hp (21,346 kW) Total Installed Power  
Bottom Dump/Pump-Out Disposal

## DODGE ISLAND

3,600 yd<sup>3</sup> (2,752 m<sup>3</sup>) Capacity | 10,695 hp (7,978 kW) Total Installed Power  
Split-Hull Dump/Pump-Out Disposal

## PADRE ISLAND

3,600 yd<sup>3</sup> (2,752 m<sup>3</sup>) Capacity | 9,895 hp (7,382 kW) Total Installed Power  
Split-Hull Dump/Pump-Out Disposal

# LIBERTY ISLAND

6,540 yd<sup>3</sup> (5,000 m<sup>3</sup>) Capacity | 15,566 hp (11,612 kW) Total Installed Power  
Bottom Dump / Pump-Out Disposal

# TERRAPIN ISLAND

6,272 yd<sup>3</sup> (4,795 m<sup>3</sup>) Capacity | 16,850 hp (12,570 kW) Total Installed Power  
Split-Hull Dump/Pump-Out Disposal

# GALVESTON ISLAND

6,500 cubic yard Trailing Suction Hopper Dredge  
under construction (Delivery Q1 2023)

# MECHANICAL DREDGES

## NEW YORK

Up to 25 yd<sup>3</sup> (19 m<sup>3</sup>) Bucket Capacity | 3,818 hp (2,848 kW) Total Installed Power

## DREDGE NO. 53

Up to 40 yd<sup>3</sup> (30 m<sup>3</sup>) Bucket Capacity | 2,250 hp (1,679 kW) Total Installed Power

## DREDGE NO. 58

Up to 50 yd<sup>3</sup> (38 m<sup>3</sup>) Bucket Capacity | 3,000 hp (2,237 kW) Total Installed Power

## DREDGE NO. 54

Up to 50 yd<sup>3</sup> (38 m<sup>3</sup>) Bucket Capacity | 2,340 hp (1,746 kW) Total Installed Power

## DREDGE NO. 55

Up to 40 yd<sup>3</sup> (31 m<sup>3</sup>) Bucket Capacity | 1,745 hp (1,302 kW) Total Installed Power

# SUPPORT EQUIPMENT

## MULTICATS

Cape Hatteras and Cape Canaveral

## TUG FLEET

Six Tugboats (McCormack Boys shown)  
800 hp (597 kW) to 3,000 hp (2,238 kW)

## SURVEY FLEET

Twenty-nine Boats (Calcasieu River shown)  
230 hp (172 kW) to 1,170 hp (873 kW)

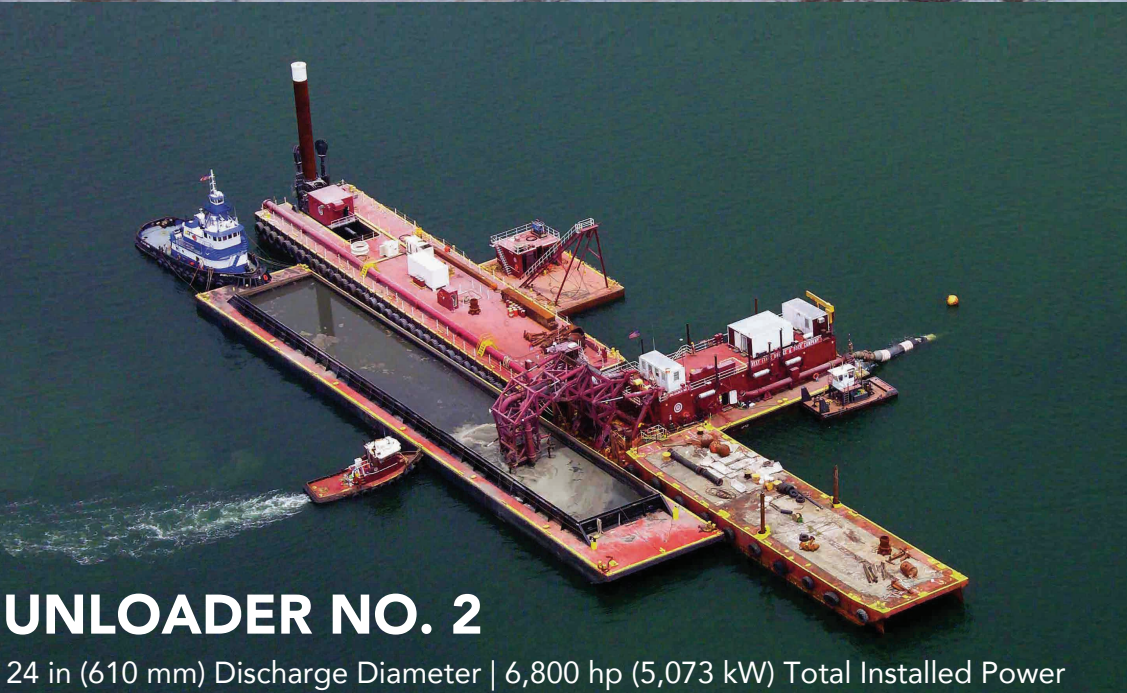

# AUXILIARY FLEET

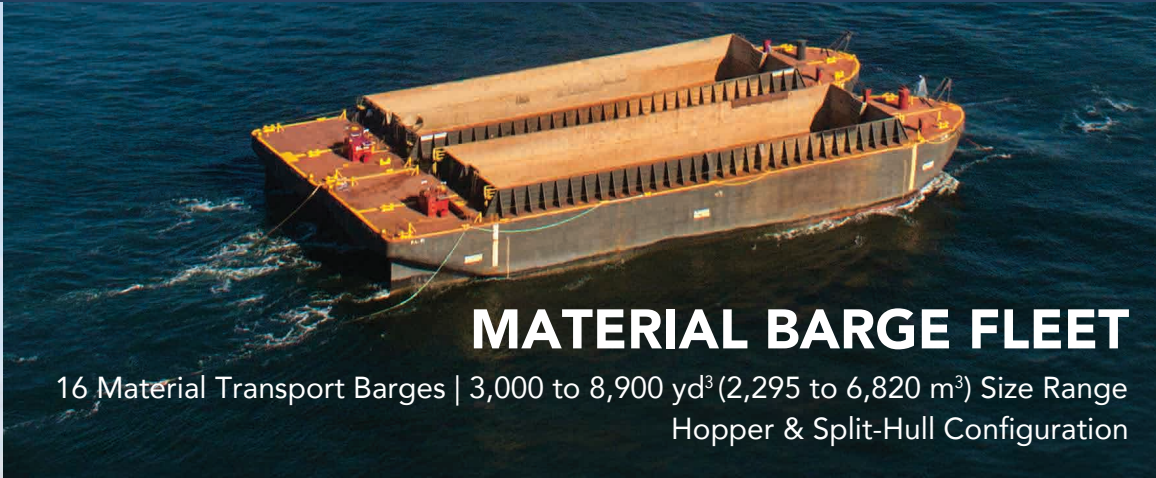

## DRILLBOAT APACHE

Three 90 ft (27 m) Towers | Hydraulic Percussion Drills; Emulsion or Stick Explosives

## UNLOADER NO. 2

24 in (610 mm) Discharge Diameter | 6,800 hp (5,073 kW) Total Installed Power

## MATERIAL BARGE FLEET

16 Material Transport Barges | 3,000 to 8,900 yd<sup>3</sup> (2,295 to 6,820 m<sup>3</sup>) Size Range  
Hopper & Split-Hull Configuration

## SPIDER BARGE 175

30 in (762 mm) Discharge Diameter | Three/Side Six-Arm Arrangement

## SPIDER BARGE 185

30 in (762 mm) Discharge Diameter | Two/Side Four-Arm Arrangement

## **BOOSTER JACK (NO. 1)**

30 in (762 mm) Discharge Diameter  
3,600 hp (2,686 kW) Total Installed Power

## **BOOSTER CAPTAIN BARNEY**

30 in (762 mm) Discharge Diameter  
3,600 hp (2,686 kW) Total Installed Power

## **BOOSTER ERIN (NO. 5)**

30 in (762 mm) Discharge Diameter  
3,600 hp (2,686 kW) Total Installed Power

## **BOOSTER JESSIE (NO. 2)**

30 in (762 mm) Discharge Diameter  
7,200 hp (5,371 kW) Total Installed Power

## **BOOSTER BUSTER (NO. 6)**

30 in (762 mm) Discharge Diameter  
14,400 hp (10,742 kW) Total Installed Power

## **BOOSTER TEXAS JR. (NO. 7)**

30 in (762 mm) Discharge Diameter  
3,900 hp (2,909 kW) Total Installed Power

## **BOOSTER REGGIE (NO. 4)**

30 in (762 mm) Discharge Diameter  
3,600 hp (2,686 kW) Total Installed Power

## **BOOSTER NO. 9**

30 in (762 mm) Discharge Diameter | 3,600 hp (2,686 kW) Total Installed Power

# OUR PEOPLE ... OUR PRIDE

Gulf Region and HQ team members gather with their families for a beach cleanup in Galveston, TX. (September 2021)

GLDD Gulf Region families enjoy fun in the sun as they help cleanup Surfside, TX beaches. (April 2021)

GLDD Northeast Region team members (pictured left) Megan Place and Lisa Bubello, and friends, help clean up the beach at Long Beach Island, NJ Beach Sweeps. (April 2021)

Southeast Region team members at Neptune Beach, FL for beach cleanup. (May 2021)

GLDD Southeast Region team members Matt Paladino, Foster Johnstone, and Sean Sears help build oyster reef habitats in Charleston, South Carolina.

GLDD Northeast Region team members Harold Valentine (pictured left) and Stephan Brogna (pictured right) participate in Clean Ocean Action's semiannual Beach Sweeps at Sandy Hook National Seashore, NJ. (April 2021)

James Tastard and Brandon Suire aboard the Dredge Carolina. (December 2021)

Safety Leadership Team meeting in Corpus Christie, TX. (December 2021)

Brandon Suire, Guadalupe Benevides, Jose Gracia, Dave Johanson on the Dredge Carolina. (December 2021)

# SAFETY

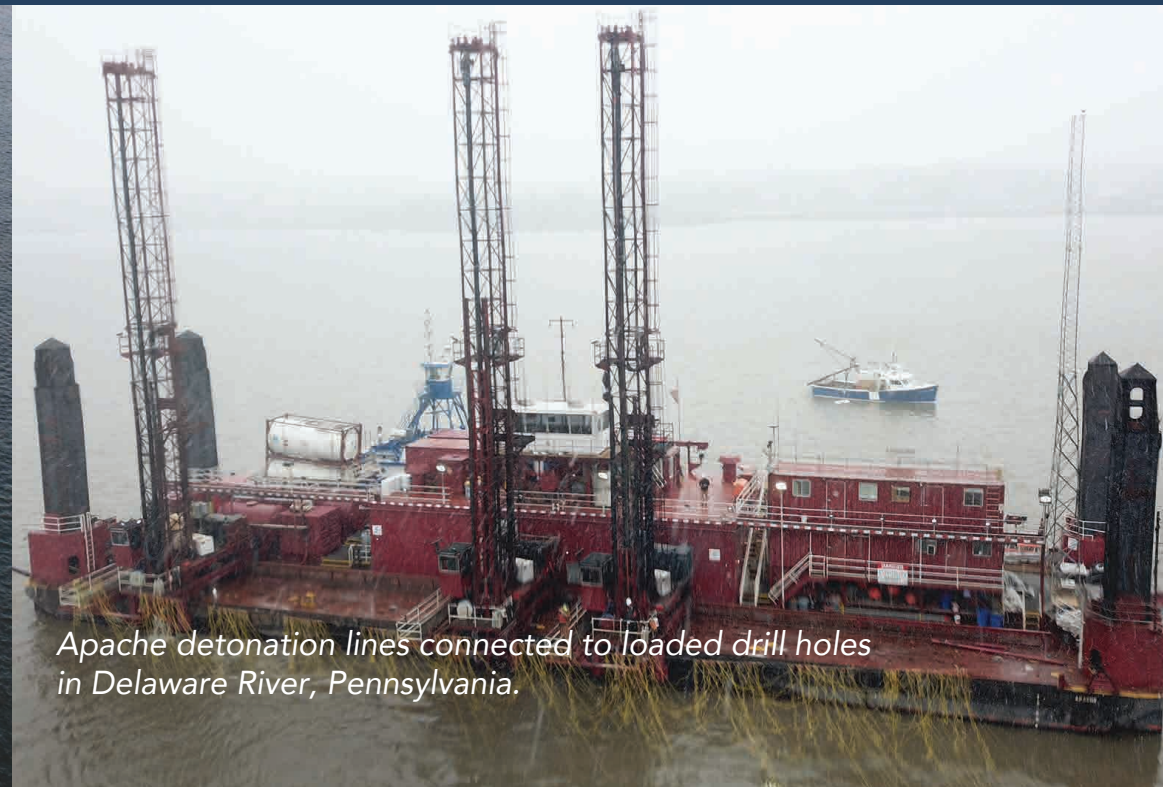

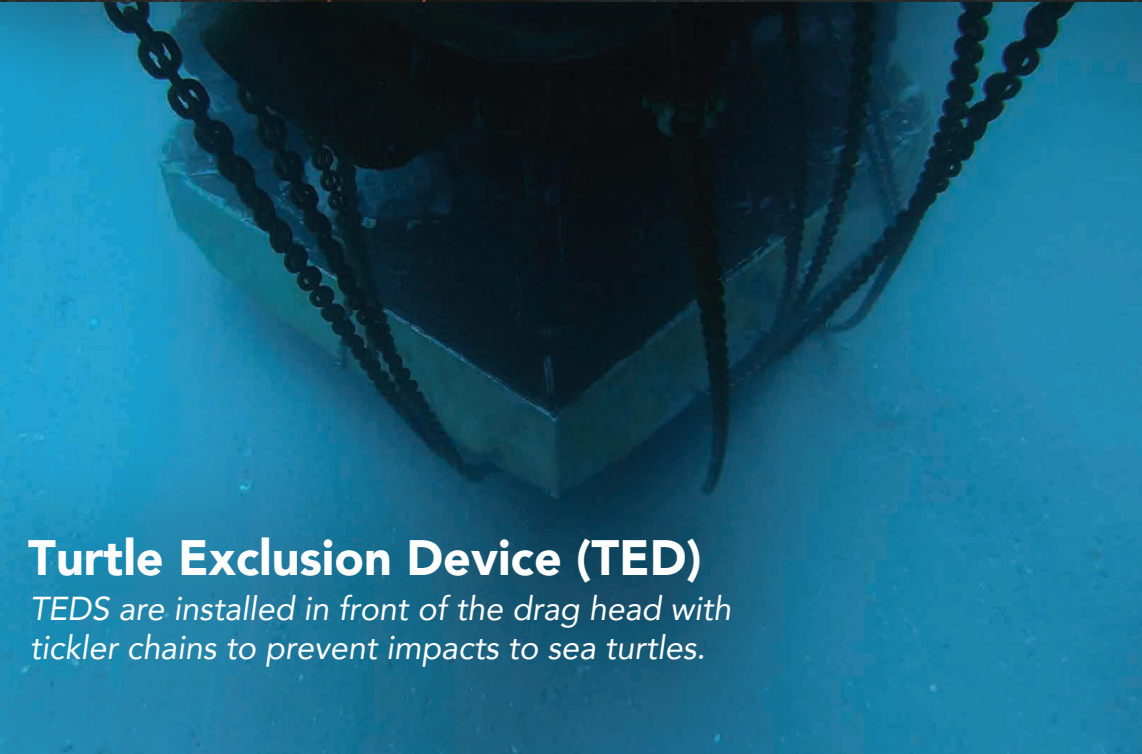

# PROJECTS

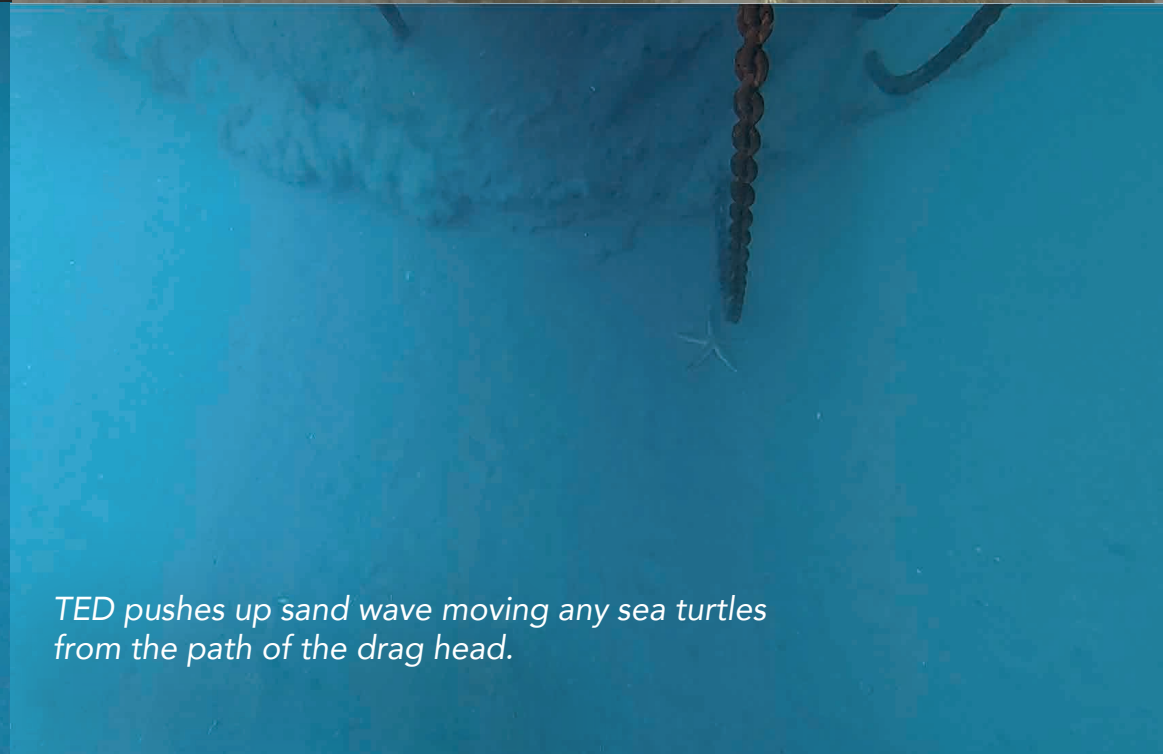

**Clamshell Dredge #54 Deepening**  
*Charleston Harbor, South Carolina*

*Apache detonation lines connected to loaded drill holes  
in Delaware River, Pennsylvania.*

**Turtle Exclusion Device (TED)**  
*TEDS are installed in front of the drag head with  
tickler chains to prevent impacts to sea turtles.*

*TED pushes up sand wave moving any sea turtles  
from the path of the drag head.*

# ENVIRONMENTAL SOCIAL & GOVERNANCE

GLDD practices effective environmental, safety, social and governance processes in everything we do. Our business is focused on ensuring that our nation's shorelines are protected and potential risks associated with storms and sea change are mitigated. Our people seek and develop technical innovations so that our work can be completed efficiently and responsibly, and we are committed to executing all projects with robust environmental and safety standards. To learn more about our ESG initiatives, visit [gldd.com/ESG](https://gldd.com/ESG).
