GREAT LAKES DREDGE & DOCK IS TRANSITIONING TO COUPA

Dear Valued Trade Partner

Great Lakes Dredge & Dock is excited to announce that we are transitioning to **COUPA**, a cloud-based procure to pay platform designed to enhance how we manage supplier relationships, purchase orders, and invoices.

This initiative is part of our ongoing commitment to improving **efficiency, transparency, and collaboration** with our valued partners.

COUPA provides vendors at no cost with the ability to:

- **Receive and respond** to requests for quotes and purchase orders electronically.
- **Submit invoices directly** and track payment status in real time.
- **Manage company information** in a secure, centralized portal.

Our goal is to simplify and standardize how we do business through an integrated portal at no additional cost to our partners. We will share additional details, training materials, and next steps soon to ensure a smooth rollout.

Thank you for your continued partnership with Great Lakes Dredge & Dock. We look forward to working with you through this exciting transition.

Warm regards,
Supplier Management
